How the best perform

NEW AKRO-FLEX™

| Create Beautiful Restorations

Akro-Flex™ is an extremely flexible composite instrument which allows clinicians to effortlessly manipulate composite materials during aesthetic restorations.

The inclusion of a ductile material allows Akro-Flex to perform as a solid brush.

Patent pending

UNPARALLELED FLEXIBILITY

By incorporating Nickel Titanium, a material known for its super elasticity, Akro-Flex acts as a solid brush. The resilient working ends are excellent when creating fine anatomical detail with delicate, artistic strokes.

HYPER-THIN PROFILE

Ultra thin working ends reach narrow interproximal spaces with ease. The flexible, versatile working ends allow for better visibility as compared to traditional composite instruments.

ERGONOMIC HANDLE

The smooth, lightweight handle offers increased control due to the large diameter. It creates an ergonomically friendly option that provides maximum comfort and helps reduce hand fatigue. Reducing hand fatigue can increase the longevity of a clinician's career.

AKRO-FLEX

Akro-Flex Composite Instrument

CONSUMABLES

SURFACE DISINFECTANT

One-step formula, cleans and disinfects critical workspaces within 1 minute of contact, offers a fast, simple and effective answer to creating a safe work environment. Sporeclear is non-alcohol based, free of aldehydes, chlorine, phenols, peroxide and nonylphenol ethoxylates, (NPEs), making them compatible with all washable surfaces and eco-friendly.

MSCD354200

IMS Sporeclear Disinfectant for non-invasive Medical Devices, Wipes, 200 wipes canister

Sugg. Retail Price 75 zł

Promo **49 zł**

CLEANING & CARE

Keeps hinged instruments moving freely. Do not contains silicone.

ILS

IMS Lubricant Spray for instruments 8oz/237 ml Pump

Sugg. Retail Price 144 zł

Promo **86 zł**

Dual enzyme ultrasonic detergent/ presoak. A fast-acting, concentrated, liquid formula.

IMS-1226

IMS Detergent Enzymax liquid, 3,8 l Gallon Bottle

Sugg. Retail Price 564 zł

Promo **282 zł**

Dual enzyme gel with corrosion inhibitor acts as a ready-to-use instrument pre-cleaner. Maintains moisture to help prevent debris from drying on instruments before cleaning and helps dissolve blood, tissue, and other debris. Can also be used as a linen spot remover.

IMS-1229

IMS Enzymax Spray Gel, 710 ml bottle

Sugg. Retail Price 129 zł

Promo **78 zł**

IMS WRAPS

Disposable paper for sterile packing of the cassettes. After the packed cassette has been opened, the sterilisation paper may be used as a base, thus forming a predominantly sterile environment. Additionally, contaminated cotton wool rolls, gauze and similar items can be disposed of hygienically in this paper.

+ SIDEKICK SHARPENER
FOR ONLY 2.263 zł (INSTEAD OF 4.114 zł)

SIDEKICK SHARPENER

The Hu-Friedy Sidekick sharpener is designed for routine maintenance sharpening of scalers and curettes. Correct routine sharpening helps extend instrument life.

- The Sidekick sharpener is cordless, for use anywhere in the dental office.
- Instrument Guide Channels and Vertical Backstops are "template-like" guides that help control blade angulation, providing consistent results.
- The Sidekick sharpener is compact and requires minimal space.

NEEDLE HOLDERS

Perma Sharp Hu-Friedy Perma Sharp needle holders feature tungsten carbide inserts with a matched diamond-cut pyramidal profile for enhanced longevity, a secure, positive suture needle grasp and reduced risk of cutting the suture material. With a precision designed hinge, the smooth surface reduces the risk of catching and or cutting the suture material during the knot tying process, enhancing clinical efficiencies. For optimal grip and control, Hu-Friedy offers a variety of design options, including standard, finger and palm controlled closure.

DID YOU KNOW?

All hinged instruments – forceps, rongeurs, scissors, pliers, hemostats, orthodontic pliers, etc. – should be kept lubricated. Regular use of proper lubricants, like Hu-Friedy Instrument Lubricant Spray (**ILS**), will prevent rust, corrosion and stiff joints to ensure smooth operation. **All hinged instruments should be sterilised in the open position.** Hu-Friedy Instrument Lubricant Spray (**ILS**) is tested on Hu-Friedy instruments.

EXTENDING YOUR INSTRUMENTS LIFE

Our newly upgraded **technical care center**, based in our facilities in Tuttlingen, further increases our goal of **maximising the useful life of our instruments**. This post-sale service allows dental professionals to ensure their instruments always perform at their best and for the longest time possible.

HU-FRIEDY TECHNICAL CARE CENTER

EXTENDING YOUR INSTRUMENTS LIFE!

SHARPENING

Instruments should be kept sharp and true to their original design. Dental procedures are most effective when using sharp instruments because they reduce fatigue, improve deposit removal, save time, enhance tactile sensitivity, and minimize patient discomfort.

PREPARATION

Our experienced service team in Tuttlingen checks, repairs and upgrades your Hu-Friedy Instruments.

MAINTENANCE

Regular maintenance extends your instruments life, improves reliability and ensures highest comfort and safety for patient and user.

CUSTOMIZATION

You can choose to customize your instrument, engraving the name of your office, its logo, or more simply, by procedural kit, making them easily identifiable for you and your team. Our laser marking technology allows our Technical Care Center Team to offer this.
